

CSCI 3308 Software Development Methods and Tools

Spring 2019

Homework 2: JavaScript, jQuery, Bootstrap

Due Date: March 22nd 11:59:59 PM MST

Total Marks: 60

Instructions:

- There are in total 4 questions in this homework and each question is mandatory.
- **The instructions for each question are presented in the HTML file inside each Question folder.**
- Please follow the instructions carefully.
- You are only supposed to modify the JavaScript files.
- Please open the HTML file in your browser to see if your code works and open it up in a text editor like Sublime to read through the code and understand the function calls.

Submission details:

Complete each question and Zip the HW2 folder. You need to submit only one zip file. (Ex: HW2.zip)

The zipped contents for your submission should look like below.

```
⊕ HW2|
